Laugh Math

Sum funny math going on here! The letters below stand for the numbers 0-9. Each letter represents a different number. Use the sums (plus sum logic) to determine the number each letter represents. Write the letters on the correct spaces at the bottom to answer this joke:

What do you do if you see a spaceman?

T + I + D + E = 21

P + E + A + K = 29

D + A + R + K = 22

D + A + T + A = 19

T + A + R = 10

R + U + N = 3

R + U + T = 6

K + I + D = 19

__ __ __ __   __ __   __ __,   __ __ __ __!

7 5 2 9   4 0   4 3   6 1 6 8

Send an e-mail with PUZZLE CONTEST in the subject line, then write the answer to the joke in the body of the letter.
